To whom it may concern,

It is with great pleasure that I am writing this letter in support of Helia Gol Mohammadi. I have known Helia since the fall of 2021 when she was enrolled in the Microprogram in Web Design and User Interface. Helia distinguished herself immediately as the student who was most filled with passion, enthusiasm, and excitement about the course material. My initial impression of her did not abate as the semester progressed. Helia earned an A- average for her work in this program, revising her projects and being critically open-minded about expanding the parameters of her thinking. She was always an active and engaged class participant, and her final portfolio project was extremely well researched, programmed and presented.
